SAFETY WEAR 2020

M A N U F A C T U R I N G S T A N D A R D S

Meets the requirements of the South
African Bureau of Standards in terms of:
SANS:434:2011: General Protective Clothing

Protecting People Everyday

Taking on the toughest jobs requires an even tougher person. Because some jobs are reserved for the brave, the fearless, and the heroic. And to those dedicated to pushing the limits, Zar Safety is dedicated to keeping you protected - every step of the way.

ZAR Safety is a young Dynamic company, our core objective is to focus on each client to provide a better and more consistent quality of service.

What we offer is SIMPLICITY & SAVINGS by our massive range of products, we can provide on our promise.

Our service which is built on efficiency and transparency is what sets us apart from the rest. We don't just provide a service but learn our clients business in order to suggest affordable and appropriate solutions to help them save in different areas of their business.

- Distributor of **Bova®**

T H E E N G I N E E R I N G W I T H I N

VizLite™:

Our Reflective and Tri-reflect ranges are engineered utilising VizLite™ Dual Technology, the leaders in reflective tapes. VizLite™ is certified to EN 20471:2013 and ANSI 107:2015 international standards for high visibility clothing.

BENEFITS OF USING VizLite™ DUAL TECHNOLOGY:

- Added level of bright phosphorescent visibility in low or no light conditions
- Charged by exposure to daylight or artificial light within minutes and lasts up to 8 hours
- Environmentally-friendly and certified to Oeko-Tex Standard 100
- Works when submerged under water

YKK ZIPPERS:

BOVA Safety Wear makes use of YKK zippers, a global leader in fastening products. This quality selection improves the durability of the garments, enhancing their longevity. YKK zippers conform to SANS 1822 standards.

WASH ALLOWANCE:

All garments within our range have been engineered with an additional 3% shrinkage allowance to withstand regular washes, thereby enhancing the longevity of the garments.

ELASTICATED WAIST BAND:

This feature provides flexibility and comfort to the wearer, enabling them to move freely while at work, without the restrictions of a belt.

PEN DIVISION:

Many of the garments within our range feature a pen division for enhanced convenience.

SIDE SLITS:

This feature has been designed to enhance the flexibility and movement of the wearer while working.

T H E E N G I N E E R I N G W I T H I N

STITCHING:

- All conti suits and boiler suits have been manufactured with triple stitched seams, ensuring enhanced durability against wear and tear
- All pockets have been double stitched with bar tacked stress points for added strength and improved storage capabilities

POCKETS:

Garment dependent, our range features the following pocket constructions:

TROUSERS AND BOILER SUITS

- Swing pockets
- Laid on pockets
- Money pocket
- Hip pocket
- Ruler pocket

JACKETS, DUST COATS AND SHIRTS:

- Large front pockets
- Extended large front pockets
- Press stud breast pockets

CUFFS:

Garment dependent, our range features the following cuff constructions:

- Elasticated
- Button closure
- Velcro adjustable

COOL AIR VENT:

Our work shirts have been engineered to include cool air vents on the back and under the arm to allow for ventilation and heat suppression.

DURAFIT:

BOVA has engineered a range of safety wear garments with added padding in areas that matter the most: elbows, seat and knees. Our Durafit range offers enhanced comfort to the wearer, as well as improved durability to the garments.

F A B R I C S

65/35 POLY COTTON:

This fabric comprises 35% cotton and 65% polyester. Cotton is a natural fibre that is known for its breathability, while polyester is a man-made fibre that is known for its resilience and washability. When polyester is blended with cotton, the resultant fabric offers better crease resistance.

J54:

This fabric is made from 100% cotton and is SABS approved. As a natural fibre, cotton is soft, highly breathable and acts as an insulator. The benefit of this fabric is that the wearer will remain cool in the summer months and warm in winter.

D59:

This fabric is made from 100% cotton and is SABS approved. The fabric is treated with either an acid resistant or flame retardant or both acid resistant and flame retardant finish, depending on the wearer's requirements.

POLY VISCOSE:

This fabric is made from a combination of polyester and viscose. Similar to cotton in its feel, the material is man-made and absorbs perspiration quickly, making it skin-friendly, but with little thermal properties.

HIGH VIZ:

The luminous fabric used in our High VIZ range comprises 50% polyester and 50% cotton. This is a highly visible fabric that offers extreme visibility in low to no light conditions. This fabric is applied to one or two types of base fabrics; either 65/35 poly cotton or 100% cotton.

T R E A T M E N T S

ACID RESISTANT:

Our acid resistant range is chemically treated to protect users in corrosive environments by defending against acid splashes and acid burns.

FLAME RETARDANT:

Our flame retardant range is chemically treated to ensure that the material has the ability to self-extinguish upon the removal of an ignition source, such as a flame or spark.

BOVA FIT:

BOVA has engineered a range of safety wear garments with added padding in the areas that matter most: elbows, seat and knees. In doing so, our Durafit range offers enhanced comfort to the wearer, as well as improved durability to the garments.
